

The Garden Consultation Package

£300 (Flat Fee)

Sometimes, you just need a professional eye to guide you in your garden. The consultation process is structured into three distinct phases.

Phase 1: Initial Visit

I will visit your space to assess the soil, light levels, and existing structure, while we discuss your goals and practical needs.

- **Timeframe:** 1 hour on-site.

Phase 2: Creative Concept & Recommendations

Following the visit, I will use the information that I have gathered to create a uniquely curated plant list for your space. I will also put together a mood board and a 2D layout of how your space could be developed.

- **What you get:**
 - **A Concept Sketch:** 2D layout showing how I would develop your space.
 - **A Mood Board:** A curated collection of textures, materials, and color palettes to set the tone.
 - **A Curated Plant List:** A selection of plants tailored specifically to your garden's microclimate and your maintenance preferences.

Phase 3: Follow Up

Once you've had time to review the concepts, we can meet a second time. This gives me a chance to explain my choices while you can ask questions about what I have presented. We can go over details of how to implement changes and maintain the space.

- **Timeframe:** 1 hour on-site (or via video call, if preferred).

Summary

Initial Visit	1-Hour Site Visit
Design	Concept Sketches, Mood Board, & Plant List
Follow Up	1-Hour Follow-up Visit
Total	£300
